—INVENTED BY—
W. WALKER
OF PENNSYLVANIA.
THE greatest improvement of the age —the most practical and scientific production ever made in the Stove line 3000 of these Stoves were sold in New England, during 1848 —More than 5,000 are now ordered of the Manufactories in New England alone The Stove has received the highest premium from every Fair that it has been exhibited before

Hot Blast Air-Tight
COOKING STOVE
[We would call the attention of the reader to the Report of the Worcester County Mechanics Association held in the city of Worcester Sept 1848]
112 *Hot Blast Air Light Cooking Stove* contributed by Gordon Williston Worcester This stove involves an entire new principle in applying the heat to the baking or broiling of meats The fine flavor of meat cooked directly upon the coals is the result of the action of the carbon To broil on coals or over coals in our best Stoves where this flavor is acquired is both a difficult and disagreeable operation But in this stove a steak was broiled in three minutes without any smoke or odor escaping into the room It was evenly and well cooked and had all the pleasant twang of a coal broil A large oven immediately over the ordinary oven is so constructed that the whole body of heat can be made to pass through it forming for the time being a flue for the draft This arrangement secures all the qualities of a good broil or bake in meats without the labor usually attendant on such affairs It likewise has good radiating qualities, with large oven and convenient arrangements for cooking furniture —(Silver Medal

MRS. E. KIDDER'S
Cholera, Dysentery,
—AND—
Diarrhœa Cordial,
—FOR—
Immediate and Perfect Remedy,
—FOR—
Cholera, Dysentery, Summer Complaints of Children, Diarrhœa, Sea Sickness, general Debility, &c
WHERE this all powerful antidote is at hand, Cholera is no longer to be seriously feared or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a very few hours if taken at the commencement—
It has been before the public for more than seventeen years and was the first article made known to the public as an
IMMEDIATE AND PERFECT CURE
OF THE
CHOLERA
It has been thoroughly tested in every country and every climate and its effect has everywhere proved the same,
SURE TO CURE,
even where the disease has advanced to its last stages

CHOLERA.
Accounts almost daily reach us of the ravages of the CHOLERA both at home and abroad and of the little success which has thus far attended the attempts to check its frightful inroads on human life
Such being the fact it surely may be regarded as an era in modern discoveries that a medicine has been discovered possessing the power of checking the progress of the Cholera and eradicating it from the system
Mrs Kidder would most respectfully call the attention of the public to this invaluable medicine known as her
"CHOLERA DYSENTERY AND DIARRHŒA CORDIAL"
Many thousand lives have been saved by this medicine when the disease had advanced to its last stages
It is hoped that every housekeeper will keep the Cordial at hand and if timely administered but little danger is to be apprehended from an attack of the
Cholera, Dysentery or Diarrhœa
This Cordial immediately checks the vomiting relieves the pain stops the Diarrhœa and restores the bowels to a perfectly regular and healthy state however severe the attack may be or however low the patient may have become it invariably restores
The Severest Cases of Dysentery
are immediately counteracted the pains allayed the bowels healed and not unfrequently the bowels become perfectly regulated and restored in the short space of ten or twelve hours
Chronic Diarrhœa,
Either in children or adults of months or years continuance is most readily cured with this Cordial notwithstanding they may be reduced to mere skeletons, it immediately strengthens and shortly restores them to perfect health
Cholera Infantum.
It has saved the lives of many thousand children when reduced to death's door by this complaint—it gives them immediate relief and they very soon recover
Sea Sickness.
It is a most pleasant and desirable remedy for Sea Sickness It checks the vomiting and readily restores the patient It invariably checks vomiting produced from any cause whatever
Children that are Teething,
if inclined to Diarrhœa should always be provided with this medicine as it will keep the bowels regulated and keep off the Canker It is wholesome safe and pleasant to the taste, and children are fond of it and will take it without trouble or dislike
For General Debility and Dyspepsia,
it is a most excellent restorative giving a healthy tone to both the stomach and bowels and prevents food from pressing or distressing the stomach
The public may rest assured that it contains neither opium or mineral substances, or anything that is in the least injurious to the constitution

CAUTION.
Be sure that you obtain MRS E KIDDER'S CHOLERA MORBUS DYSENTERY and DIARRHŒA CORDIAL, and you will get the only true and original article which has ever been in the highest estimation by the public thoughout the whole country
It is put up in bottles holding nearly a quart intended for family use and sold at One Dollar per bottle

Holden's Alterative and
TONIC MIXTURE,
IS the best combination known for changing the unhealthy secretions of the Stomach inducing strength to that organ and for purifying many troubles which are often attributed to impurity of the blood
Its action is that of a mild Alterative and Tonic restoring health and strength often without producing any sensible evacuation and without leaving behind any unpleasant effect on the constitution
By its use the appetite becomes regular and good digestion perfect sick head ache and many nervous disturbances growing out of imperfect digestion are generally cured persons of debilitated constitutions become healthy and strong by its use
By reason of the sympathy between the stomach and the skin many diseases of the latter grow out of a morbid action of the former even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine
Many troubles of children supposed to arise from worms are caused by a deranged state of the stomach and are removed by its use Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it
It contains no poisonous ingredient and cannot in any case do harm

Home Testimony.
We the undersigned have ourselves or in our families used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended

AGENCY FOR BUSINESS
With the Patent Office
WASHINGTON
NO 22 STATE STREET, BOSTON.
IN 1840 the subscriber was appointed by the Commissioner of the U S Patent Office to act for citizens of the U S
Having resigned the Agency for the transaction of Patent Business at the Patent Office in order to devote his whole time to the duties of his profession as Solicitor of Patents, he would respectfully inform inventors that they can procure their patents on as favorable terms as they can be procured by any person whatever, as the examinations to ascertain the novelty of inventions are made at the Patent Office
Inventors who may be prosecuted about sixty weeks before the examiners to forward the requisite papers—
I prepare Caveats Specifications Assignments and all the necessary papers and Drawings for Patents and to render advice on legal and scientific questions respecting the same Patents secured in Europe and other countries
By application at this office inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents They also have the advantage of verbally explaining the invention and consulting in respect to them *matters of great importance in order to obtain correct specifications and claims* The experience of *sixteen years* practice and extensive collection of rare works decisions &c on mechanical subjects the Patent Laws and patents of different countries collected at much expense during the long time this office has been established shall together with accounts here kept of inventions patented at Washington enable the subscriber to afford to inventors desirous of procuring Patents as instance and information on which in other respects might be difficult of attainment
R H EDDY Solicitor of Patents

WASHINGTON, JULY 21, 1849...
During the time I occupied the Office of Commissioner of Patents R H EDDY Esq of Boston did business at the Patent Office as Solicitor for procuring Patents There were few persons acting in that capacity who had so much business before the Patent Office and there were none who conducted it with more skill fidelity and success I regard Mr Eddy as one of the best informed and most faithful Patent Solicitors in the United States and I have no hesitation in assuring Inventors that they cannot employ a person more competent and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office EDMUND BURKE

Visit of the Casco Engine Company.

The complimentary dinner of the Eagle Engine Company No 3 of this city, at the Greys Hall on Tuesday afternoon was an elegant entertainment It was provided by Messrs Vinton & Porter of Acadian Hall and was sumptuous throughout Every luxury of the season and of all climes graced the tables, and there was a finish and completeness rarely met with on public occasions

The Casco's were escorted to the tables where were a large number of invited guests by the Eagles The Foreman of the Eagles Jeremiah Fenno Esq then gave a warm and cordial greeting to the Casco's in a neat and appropriate speech in which he alluded in very flattering terms to the reception and entertainment of his Company in Portland, last season by those whom they now had the pleasure of receiving as their guests Capt F C Moody Foreman of Casco Company replied with great appropriateness when the order was given for all hands to play away, which order as usual was promptly obeyed

After fully satisfying their physical appetites speeches, sentiments wit humor songs, and music followed and the variety of scintillations was received with high pleasure The performances of the Casco Quartette Club, and the Bangor Glee Club were of high order and elicited high applause Their songs were mostly written for the occasion and were beautifully appropriate A Firemen's Song written by Mr Luther Eaton member of Engine Company No 4 was sung by Mr Farrington in fine style

The attractions were so numerous that the company remained at the table until the shades of evening and then the intellectual materials instead of being exhausted, seemed but to have commenced in their development It was a joyous, social occasion, full of hilarity and good feeling under the influence of pure cold water and without the destructiveness of artificial stimulents

After the services at the tables the Eagles escorted the guests through some of the streets of the city and thence to their quarters

The members of Casco Company are the flower of the young men of Portland, and bring with them a high reputation for sobriety intelligence and moral worth and their exemplary conduct here fully sustains this reputation Portland is well represented by these men and they well sustain this responsibility The elder city of the State need have no fear of sending out such delegates to her sister cities as specimens of her character at home

The Casco Quartette Club sung an original song a copy of which we have not been able to obtain

The Glee Club of Bangor responded by singing the following

SONG

Why what a crowd of Firemen bold
Are gathered here to day—
The men who fear'n t heat or cold—
Whose hardest work is play
Here's to you Casco Boys
Here's to you with hearty cheer,
Here's to every Fireman true,
Long life and health, and happiness
To each and all of you—
Here's to you Casco Boys

II

With startling clang the alarm bells peal
At midnight's silent hour,
Dense smoke and lurid flames reveal
The Fire fiend in his power—
See the EAGLES on the wing
See the TIGERS on the track
See the ANCHYS rushing on
They grapple with the firey foe,
And soon the victory's won
Thus the Fireman does his work

III

When poors the dog day's burning sun
Or raves the winter's storm
The Fireman must do duty shun
But each, and all perform
He must tug at the *machine*,
He must labor at the brakes
He must *light along the Hose*
And rush through stifling smoke and flame
Be roasted steamed and froze
'Tis the Fireman's pleasant fare

IV

Thus of the Fireman's toils we've sung—
His hardships night and day—
His promptness when the alarm bell's rung
To hasten to the fray—
But we have not told you yet—
We've the secret still to say
What these *Salamanders* get—
For all their noble services
What is the Fireman's pay?
'Tis not *Eight dollars* a day

V

The Fireman can't be paid in gold—
For *pay* he labors not—
The PUBLIC GOOD—none need be told
Is by the Fireman sought—
Then success to Firemen all
Praise and honor be their meed
May misfortune ne'er befall
But every blessing every good
On them forever fall,
Here is honor to them all

The following songs were also sung at the table by the Glee Club

NUMBER THREE

I

Now Firemen listen to me—a story I'll relate
It was about a year ago in the old Lumber State—
Away down to Bangor—'twas where we used to be—
We always worked the harder, when we thought of Number Three'
O' dearest Three
You're lovely as the day—
Your works so bright,
They shine at night,
When the moon's gone away—

II

The 'fathers' gave us liberty—we could not ask for more—
Thank'd them very kindly and left our city's shore—
And up to Portland we did go, with hearts so light and free,
To show our beauteous Eagle there, the glorious Number Three'
Oh' dearest Three, &c

III

When we came into the city the streets were lined with men—
The ladies filled the windows, most beautiful I ween—
And when our Three they saw, they waved their hands so white
They ne'er had seen an Eagle they liked so well—not quite
Oh dearest Three &c

IV

Our Boys they treated splendidly, to Diamond Cove we went—
They gave us at the Verandah a feast magnificent
With torches they did light the way, and music played the while—
I never had so good a time since when I was a child'
Oh dearest Three &c

V

So now in eighteen forty nine to see her at her home
They send their noble Casco down, that certainly, *is some*
Most cordially we greet them here and give her Boys our hand
We do not ask to rival them of *Brothers* we are a band
So Casco here's to thee,
You're lovely as the day
Your works so bright
They shine at night
When the moon's gone away

OLD NUMBER ONE

Dere was an old Tub dey called Number One,
He's gone long ago—long ago—
He look jess like he was made for fun'
And he put out de fire berry slow'
Den lay down de drag rope and de hose',
Put up de finger to de nose,
No more work for de poor ole Tub
He's gone where de sun nebber rose'

His hose was like de ole suet skin,
His nose he crook berry bad
He had no mouf to suck de water in
And he let de water out berry bad
Den lay down de drag rope and de hose' &c

When old 'One' die he die berry hard—
He wheeze like a horse wid de heave,
Dey grease him nose wid de suet and de lard
So he gin out cause he could not breave'
Den lay down de drag rope and de hose'
Put up de finger to de nose'
No more work for de poor ole Tub
He's gone where de sun nebber rose

THE FIREMEN

I had a dream the other night
When all around was still—
I thought I saw a church on fire,
Far off upon a hill
The roof sent up a sheet of flame,
The walls did brightly glare
I'm gone' 'tis gone' I did exclaim,
For there's no water there
Ho brave firemen
They're the boys for me
No task can ever tire them
When once a fire they see

I looked again—with clouds the sky
Was black and drenching rain,
The vanquished fire did vainly try
To raise its head again
This mighty change what wonder wrought?
Whence came this timely aid?
Sure, Jove once more the earth has sought
Again his power displayed
Ho' brave firemen &c

I looked again—there Casco poured
A strong and steady stream'
Aloft the haughty Eagle soared
With a triumphant scream'
The Tiger climbed the crackling wall
Sure of his victim's life,
And Four and Five backed up them all—
No laggards in the strife
Ho' brave firemen &c

The marvel solved—I woke and thought
Oh, that was but a dream,
A world on fire they thus had fought
It might a wonder seem
These Tubs and Boys a moment's work'
Such fires are but an inkling
To gunpowder apply the spark—
They'd fight *that* in a twinkling
Ho' brave firemen,
They're the Boys I say
No task can ever tire them,
Hurra' Hurra' *Hurra*

FIRE!

Between one and two o'clock this morning a fire broke out in the second story of the steam cabinet manufactory of Messrs A & E Dole on Hammond street The flames spread with great rapidity and soon enveloped the upper part of the building but by the prompt exertions of the firemen, who worked with a will the lower part of the building was unconsumed, and the engine but partially if at all injured

There was from fifty to one hundred dollars worth of lumber burnt, together with all the furniture partially manufactured the benches and tools were burnt or greatly injured

Anniversary of the Great Fire.

One year ago to day, hundreds of buildings were annihilated by the devouring element—Those who witnessed the conflagration, will not soon forget its terrific sublimity

Long before the smoke had ceased to ascend from the ruins the work of renovation was begun Before the expiration of thirty days, over one hundred new edifices were commenced, and within the year, nearly three hundred have been completed And most of them are spacious and elegant—far superior in dimensions and architecture, to those destroyed Not less than a million of dollars have been expended upon them, and the Burnt District is now the most beautiful and attractive part of our ancient city [Albany Journal, 17th

The Indians.

There are many flying rumors from the lower counties but nothing certain or definite as to what the Indians are at The settlers continue in great alarm, and are flocking in numbers to the villages South and East Others are banding together and preparing for the defence of their homes—[Tallahassee Floridian, 11th

For the Whig and Courier

New City at Hadley Falls, Massachusetts

This adds another to the money monuments already erected, in this model State, to attest to the wisdom of the policy so long and steadily pursued by her Legislators and leading men—In travelling through the country in almost any direction one is struck with the indications of increasing wealth and prosperity which every where meet the eye Factories are being built and villages springing up in every direction, and the whole land is teeming with industry and overflowing with plenty Places which, a few years ago, were deserted and worthless solitudes, are now the localities of wealthy and populous cities, resounding with the ceaseless hum of business, affording a sure market to the neighboring farmers ready employment for the mechanic and a fair compensation to the industrious in every profession

What a striking contrast all this exhibits to the policy of our rulers and consequently to the present condition and future prospects of our State 'Tis true our Legislators have pursued a policy as straight forward and undeviating, as that of Massachusetts, and for nearly the same length of time, but it has always been in a contrary direction Instead of offering a fair inducement for the investment of capital from abroad, and the successful employment of that which we have among us, in manufacturing and other enterprizes for which our State is so peculiarly fitted, they have studied industriously, and with an insane zeal, and success truly astonishing, to discourage every enterprize which promised to be a permanent benefit to the State Thus our unrivalled streams are permitted to run undisturbed to the ocean without an attempt to make them available for manufacturing purposes, our mineral resources lie neglected and worthless, and the industrious sons and daughters of Maine, are leaving a State where the cry of corporation, monopoly, &c effectually discourages every honest employment which offers to remunerate over *four and sixpence* a week

Thus in a State containing the greatest resources of any in New England, and proverbial for the energy and enterprize of her population are every where seen the blasting effects of Locofoco madness and misrule

With these few remarks we will give a brief description of the new city at Hadley Falls—This gigantic enterprize which Massachusetts capital and Massachusetts skill, are rearing into being on the banks of the Connecticut is without a parrallel in the country It is about two years since the work was commenced In this short time, hills have been levelled, valleys filled the rocks excavated, bridges constructed, vast buildings erected, and long lines of heavy wall reared, on a scale, destined soon to out strip Lowell as greatly as Lowell towers above the little manufacturing villages scattered throughout the commonwealth

The fall of water at this place is about 59 feet The Hadley Falls Company incorporated with a capital of four millions of dollars, own the whole, and about 1200 acres of land adjoining A dam, on an improved plan, 1017 feet long is being constructed in place of the one carried away by the freshet last year Two canals parallel to each other, half a mile long, each, (but may be extended for several miles) 500 feet apart, 140 feet wide, 15 to 20 feet in depth, and with strong massive walls, 9 feet in thickness at the bottom These canals are at right angles with the river, and the bed of the lower 20 feet below that of the upper The two are connected at the entrance by a dam of great strength, now nearly completed A lock also is to be placed here to enable boats to pass from one canal to the other

Between the canals the present company intend to construct four first class factories, one of which is nearly completed This factory which is a model of the others, is 268 feet long, 68 feet wide, and six stories high including basement and attic The foundation for the second one is also laid. One of these factories will carry 18000 spindles and give employment, directly and indirectly to from 800 to 1000 persons

Besides the above the company have already finished a blacksmith's shop 200 by 60 feet, with a chimney 134 feet high Also 32 neat two story brick tenements, occupying a square 400 by 190 The foundations for a grand machine shop 448 feet long and 60 wide are nearly completed, and one half of the building, which is to be three stories high, will be erected the present season

These constitute the leading features of the work finished, and immediately in progress by the corporation Numerous private individuals and companies, have taken advantage of the opportunities here afforded for business, and are doing much towards building up the place.—Several Hotels, many stores, large and small, and numerous private dwelling houses have already been completed, or are in the course of erection

An immense reservoir is being constructed on a neighboring hill to be filled with water from the river by a large force pump, which is thence to be distributed in service pipes all over the place By this admirable arrangement an ample supply of pure water will be secured to the citizens forever;

The Connecticut River Railroad which passes through the city affords a ready means of communication with the seaboard, and the principal places of trade in the country

There is scarce a limit to the power here afforded the water being used twice nor to the population it will support when brought into complete active use It is estimated to be capable of driving 1 200 000 spindles, which would bring together a population of *one hundred thousand persons*

An undertaking of such magnitude and promising such results, must of course extend its influence for many miles around The effects are already manifesting themselves, in the advance in real estate, the revival of business generally and in the opening of new and important branches of industry, dependant upon, and springing from the population at this point

Young Men's Cities

"Give a young man a taste for reading and in that single deposit you have furnished him with a great safeguard He has found at home that which others have to seek abroad namely, pleasureable excitement He has learned to think, even when his book is no longer in his hand, and it is for want of thinking that youth go to ruin

"Some of those who have been most eminent in learning and science made their first attainments in snatches of time stolen from manual employment Hans Sachs the poet of the Reformation, and the Burns of Germany, began life, as did Burns poor boy he was a tailor's boy, and served an apprenticeship first to a shoemaker and afterward to a weaver, and at noon to work at the loom at which he lived The great dramatist Ben Johnson was a working bricklayer, and afterwards a soldier Lucretius, the father of modern botany, was once an shoemaker's bench Our immortal Franklin, I need scarcely be said, was a printer Among the class of scholars of our day, no one has been more distinguished than Heyne, the voluminous commentator on Homer and Virgil He was the son of a poor weaver and when he wanted to learn Latin, engaged to pay a scholar fellowship a week for teaching him; but even this petty stipend would have been too much, if it had not been for the kindness of a baker, who was his godfather Herschel, whose name is inscribed on the heavens, was the son of a poor musician, and at the age of fourteen years was placed in a band attached to the Hanoverian guards After going to England, he undertook to teach music, and then became an organist But while he was supporting himself in this way, he was learning Italian Latin and even Greek From music he was naturally led to mathematics, and thence to optics and astronomy John Dollond, the inventor of the achromatic telescope, spent his early years at the silk loom, and continued as original business even for some years after his eldest son came to an age to join him in it Few cases are more celebrated than that of Gifford, the founder and editor of the Quarterly Review He was an orphan, and barely escaped the poor house He became a ship boy of the most menial sort, on board of a coasting vessel He was afterward for six years apprenticed to a shoemaker In this last employment he stole time from the last, for arithmetic and algebra, and for lack of other conveniences, used to work out his problems on leather with a blunted awl Few names are more noted in modern literature

"*Redeem time for reading* Perhaps you think this impossible, but the busiest life has some pauses,

"When I see the large amount of time spent by some even of the lowest sort of newspapers, I am convinced that the most industrious young men might obtain a few minutes a day for study, and it is astonishing how much can be learned in a few minutes a day What cannot be done to day, may be accomplished to morrow It is as true of time as of money—take care of the pence, the pounds will take care of themselves Or, as Young more poetically expresses it,—'Sands make the mountain, moments make the year

"*Do a little every day* Constant dropping wears away stock When Appelles the famous Greek painter, was asked how he had been able to accomplish so much for art, he replied — By the observance of one rule—*No day without a line*

Be not discouraged by difficulties These are chiefly at the start The French proverb says truely—"It is the first step that costs" The first of knowledge has a rough truth, but certain as truth You must crack the shell, to come at the kernel Be assured that a little resolution here will insure success

"*Begin at the beginning* Do not smile the rule is important and is followed every day, in every employment It is travelling a straight thread, who does not know what everything depends on getting hold of the end? Just so it is in learning

"Never be ashamed to learn And in conformity to this never be ashamed to confess your ignorance, in the presence of those who have more information than yourself Many of us would be wiser if it had not been for the conceit of being wise enough already

"*Value the smallest fragments of knowledge* In manufactories of gold, I have observed that they save the very sweepings of the floors and put network at the windows the little morsels and fine dust of the precious metals, thus saved in this city, amount to hundreds of dollars every year

"*Seek associates in learning* Here seem other concerns, many hands make light work—We love companionship, both in toil and in pleasure It sweetens study, and adds to its profits Find out some young friend who has similar tastes and enlist him in a definite plan for mutual improvement, the benefit will accrue to him, as well as to yourself

"*About your self of a good teacher* Companions may do much, but they cannot do everything Solitary study goes a certain length but it works at a great disadvantage

"*Connect yourself with some library* This is a great saving Libraries abound, but, like other abundant things, they vary in quality—Some are nothing but trash, but their greasy tattered volumes show what an avidity there is for empty novels and inflammatory plays By taking counsel, however, you will easily find your way to large collections, containing the most valuable books in the language on history, religion, philosophy, literature, and the arts

"*Lay aside a little money to buy books* There are certain books which every man should possess as his own, and every reading man desires by degrees to gather a little library for his wife and children A trifling sum, set aside each month, and redeemed from amusements or luxuries, will soon give an account of itself on your shelves

Employ your pen This counsel, though less frequently given than others, is nevertheless far from being superfluous There is a marvellous power in writing down what we know It fixes the thoughts, reveals our ignorance, methodizes our knowledge, aids our memory, and insures command of language Men acquire more knowledge, says Bishop Jewell, 'by a frequent exercising of their pen, than by the reading of many books

"At men of high attainments agree in saying that the more valuable part of every one's education is that which he gives himself In this there is high encouragement to go on and prosper The mental accomplishment which is fully within your reach will double your capacity for action When Aristippus was asked, wherein a learned and unlearned man differed, he replied 'Put them both, naked, on a foreign shore, and you will see' Education will do for you, what sculpture does for the marble Hence the famous saying of Socrates—'I marvel that people should be willing to give so much for turning a stone into a man, and so little to prevent a man's turning into a stone"

CHOLERA SYRUP.

HAVE prepared an article well adapted to the permanent cure of CHOLERA MORBUS, and other Bowel Complaints, which has received the commendations of Medical Practitioners, and has been proved by actual trial to be a specific in all cases when taken in proper season

In the opinion of those who have used it, it is superior to any preparation before the public for the complaints it is intended to cure

Many in this city have found immediate relief in attacks of vomiting and purging, accompanied with severe griping

Every person should keep a Bottle of this Medicine at hand, in case of a

Sudden attack of Cholera,

To take according to directions until a *Physician can be procured* Many a life may be saved by an immediate use of this remedy

Price only 25 cents for a 4 oz Bottle Manufactured and sold only by G McFARLAND,

No 6 Main St, Bangor

PURIFY!!

A VERY celebrated disenfecting CHLORIDE for purifying the atmosphere is now manufactured fresh and good, in this city, by the subscriber

This highly disinfecting preparation, discovered by a celebrated French chemist, is one of the best preventives against Cholera and all other diseases arising from an impure state of the atmosphere — Its presence purifies the air and renders all offensive matters entirely inodorous and it is therefore a very desirable article to throw about sink drains, privies, and all places where the atmosphere is tainted with unwholesome gases and offensive effluvia

This article has received the high commendations and approval of Dr Geo W Holden, of this city

Dr. Townsend's

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles—it is six times cheaper pleasanter, and warranted superior to any sold It cures without vomiting, purging, sickening, or debilitating the Patient

The great beauty and superiority of this Sarsaparilla over all other medicine is, while it eradicates diseases it invigorates the body It is one of the very best *SPRING AND SUMMER MEDICINES* ever known it not only purifies the whole system and strengthens the person, but it *creates new, pure and rich blood* a power possessed by no other medicine. And in this lies the grand secret of its wonderful success—It has performed within the last five years, more than 100,000 cures of severe cases of disease, at least 15,000 were considered incurable It has saved the lives of more than 5,000 children during the two past seasons

10,000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY

Dr Townsend's Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effect of medicine or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system, gives activity to the limbs, and strength to the muscular system, in a most extraordinary degree.

CONSUMPTION CURED.

Cleanse and Strengthen Consumption can be cured Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or profuse expectoration, Pain in the Side, &c, have been and can be cured

SPITTING BLOOD.

New York, April 28, 1847

DR. TOWNSEND—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life I have for several years had a bad cough It became worse and worse At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live—I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me I am now able to walk all over the city. I raise no blood, and my cough has left me You can well imagine that I am thankful for these results.

Your obedient servant,

WM RUSSELL, 65 Catharine st.

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings, Esq, one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter

Blackwell's Island, Sept. 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat, sleep or walk. I had the most distressing pains, and my limbs were terribly swollen I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good I am so much better—indeed, I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours, respectfully,

JAMES CUMMINGS

FITS' FITS' FITS'

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Fordham, August 13, 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age, who has been several years afflicted with Fits we tried almost every thing for her, but without success, at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful Yours, respectfully,

JOHN BUTLER, Jr

FEMALE MEDICINE.

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Leucorrhœa or Whites, obstructed or difficult Menstruation, Incontinence of Urine or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame which is the great cause of Barrenness—It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "*The turn of life,*" should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life This period *may be delayed for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child birth ever discovered. It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—in Costiveness, Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flashes of loveliness that all admire, but none can describe. This beauty is the offspring of *nature*—not of *powder or soap* If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr Townsend's Sarsaparilla. Thousands who have tried it, are more than satisfied, are delighted. Ladies of every station crowd our office daily.

NOTICE TO THE LADIES.

Those that imitate Dr. Townsend's Sarsaparilla have invariably called their stuff a *great remedy for females, &c., &c.*, and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have, since the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not. A number of these Mixtures, Pills, &c, are injurious to females, as they aggravate disease, and undermine the constitution.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood Three persons cured in one house is unprecedented.

THREE CHILDREN

Dr Townsend. Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.—They were afflicted very severely with bad sores; have taken only four bottles, it took them away, for which I feel myself under great obligation. Yr's respectfully,

ISAAC W. CRAIN, 106 Wooster st.

OPINIONS OF PHYSICIANS.

Dr Townsend is almost daily receiving orders from physicians in different parts of the Union.

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided.

"This Plaster is composed of quite a number of vegetable substances peculiarly compounded—There never has been, and there is not at the present time, a better plaster made, for the various purposes for which plasters are used It HAS NO SUPERIOR for removing

Pain, Internal Inflammations,

Rheumatism, Gout; Swollen or Weak Joints Limbs or Cords, Lameness, Cramp, Pains or Weakness in the Side Back or Breast, Weak Stomach, &c, &c, and when used in

LIVER AND PULMONARY DISEASES, will prove very beneficial to those suffering with such complaints

Extract from a letter of an eminent physician in Worcester Co, Mass, a member of the Massachusetts Medical Society

WINCHENDON, Jan 16, 1849

"Dr Stephen Jewett

Dear Sir,—I have used your *Health Restoring Bitters* in my practice, and have found them very serviceable in *Dyspepsia, Humors General Debility*, and particularly in *Habitual Costiveness* I consider it one of the *best* remedies in use Yours, &c,

IRA RUSSELL, M D"

From one of the most eminent physicians in the State of New Hampshire

TEMPLE, N H Jan 17, 1849

"Dr S Jewett

Dear Sir—I have examined your *Pulmonary Elixir*, and am well satisfied that it *merits the full confidence* of the community, as being what it purports to be, an efficient and *safe* remedy for *all* the diseases to which the respiratory organs are subject It may be used with much more *safety* than almost any other article offered for this purpose, inasmuch as the danger of impaired action of those organs, the frequent and legitimate result of most other remedies of the class, by reason of *their opiate character* is, *by this, entirely obviated*

The physician who should meet with it in families, would find it a *ready assistant*, by which his own labor in the dispensation of medicine would be obviated, and his efforts for relief essentially aided

With much consideration your obed't servant

N KINGSBURY, M D"

See what a very celebrated merchant and well known insurance agent says

PORTLAND, Me, April 24, 1849

Dr Stephen Jewett

Sir,—Having used your *Health Restoring Bitters* and *Pulmonary Elixir*, to a considerable extent, in my family, for the past winter, I would beg leave to bear testimony as to the efficacy of those medicines, the former *for restoring loss of appetite, for headache, languor*, and *general debility*, the latter for *coughs and sore throat*—In fact, I think *no family should be without those restoratives always at hand*, thereby frequently *superseding* the *necessity of calling in a physician*

Your ob't serv't, CALEB S. CARTER

From George W. McLellan, Esq, formerly a distinguished citizen of Maine, now of the city of Boston.

BOSTON, Mass., May 3, 1849.

Dr. Stephen Jewett:

Sir—I have used your *Pulmonary Elixir* in my family for a year or more, and it has proved *decidedly the best cough medicine I have ever known* I therefore most heartily recommend it to all who may require such a medicine. Respectfully yours,

GEO W McLELLAN.

McKENNEY'S
COSSACK SALVE!!

An Invaluable Remedy

FOR Fever Sores, Rheumatism, Swelling of the Feet and Limbs, Swelling of the Tonsils or Sore Throat, Chronic Eruptions of the Skin, and all Scrofulous Diseases Rigid Cords occasioned by Colds or Strains, Stiff Neck, Chilblains or Chapped hands, Sore or Inflamed Breast, Weakness or Pains in the Stomach, Piles, Corns, Warts, and Common Sores, and Cuts and Bruises of all kinds

In bringing this article before the Public, we are aware that we labor under no small disadvantage amidst the multitude of "All-Healing Ointments" and "Panaceas" that are now advertised as the "*most effectual*" and "*certain cures*" for all diseases indiscriminately, to which man or animals are subject

A history of this Salve, and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing

We would only add that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends and those who have experienced its wonderful medicinal and all-healing properties

To say, indeed, that we do not expect to realize a handsome remuneration for our services, would be alike useless and untrue But we flatter ourselves that if, forsooth, we are richly paid, and the article soon, very soon, has an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated, we do not and shall not call to our aid the empty "*puffing of the Press*," or the "bought certificates" of individuals, and shall make use of them only so far as they have been or hereafter may be, entirely *voluntary* and *unsolicited*

The Salve is now before the Public!

They, and they alone, will decide upon its real virtues and medicinal properties To say less, were injustice to ourselves—to say more would be superfluous

Here are some of the many Certificates—

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it commenced swelling from the ankle to the knee After using many remedies without success I applied some Salve obtained of Mr A M McKenney, and continued its application until I had used six bottles, which entirely cured me and I have had no return of the disease since I would also say that I know the above Salve to be a cure for CORNS, one of my family having used it for this purpose with complete success

DANIEL SEAVEY

Dexter, (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure without success which cost me about forty dollars I bought 14 oz of JONATHAN McKENNEY'S SALVE which effected an entire cure in less than two months SIMEON MARSTON

Gray May 11, 1846

BANGOR June 5, 1846

Mr. McKenney—In going into the woods in the autumn of 1845 with the charge of quite a number of men for the winter lumbering operation, I was induced to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises, and I found indeed, to my great satisfaction, that it was an invaluable article I also made application of it in cases of Cuts Sprains and Bruises upon my cattle, and found it equally beneficial It can truly be called the All-Healing Salve

N. B. DOWN'S

Vegetable Balsamic Elixir,

The Great Northern Remedy for Consumption!

ALSO, the most effectual remedy in the world, for *Colds Coughs Whooping Cough Croup or Quincy Asthma, Pain in the Side or Stomach*, and all diseases of the LUNGS AND LIVER

This medicine is purely vegetable, and is by far the most effectual medicine known for all diseases affecting the BRONCHIAL OR PULMONARY ORGANS

Its effect upon the patient is most marked, and differs from that of most medicines recommended for the same complaints, in the following particulars

1st—It never irritates the organs it should soothe—never dries up the cough, leaving the cause untouched—but first *loosens the cough, increases the expectoration or spitting* then removes the cause, *eradicating it completely* from the system, when as a matter of course, the *cough ceases*, and the patient is well.

2d—It never produces costiveness in the consumptive patient—on the contrary it has a laxative effect and is a moderate cathartic We defy the world to produce a case of costiveness so inveterate but that in two or three weeks (the patient in the mean time having proper regard to diet) it will entirely remove it and produce a healthy action of the bowels

3d—It does not produce a *dryness of the skin* but is a powerful promoter of *sensible and insensible perspiration*, thus expelling by the pores of the skin, those nauseous fluids and impurities of the blood, the retention of which in the system is the *sure precursor of* DISEASE SICKNESS AND DEATH

We do not pretend that DOWN'S ELIXIR is a specific for all the ills that flesh is heir to, but we do say, and can confirm by incontestable evidence, that for

CONSUMPTION,

And all all diseases of the *lungs, the liver and the pulmonary organs*, it is *unrivalled—unequalled*—HUNDREDS have been snatched from an UNTIMELY GRAVE, and hundreds who *delayed too long its use*, have found in the advanced state of their disease, that RELIEF FROM SUFFERING, which they had vainly sought from every other source

This INVALUABLE MEDICINE *is highly concentrated* and put up in 2 oz and 4½ oz bottles, at fifty cents and one dollar per bottle, and each bottle warranted to contain MORE CURATIVE PROPERTIES than four bottles of any of the *weak, adulterated* pint bottle preparations of the day

We have received *hundreds of certificates* of its wonderful cures, from every part of the country, many of which have been published *and may be had gratis of any of our agents*

Sold wholesale and retail by CURTIS & SMITH General Agents, ST ALBANS, VT, to whom all orders for supplies of the medicine should be addressed, (stating the best mode of sending it)—also, sold by agents in nearly all the villages and towns in the country

It is also sold, at wholesale and retail by David Bugbee, G W Ladd, Curtis & Perkins, A P Guild, Wm Mann G McFarland Bangor, L, S Smith, J W Curtis & Co., Hampden, Chas Johnson, J B Chick, Frankfort, H P Fifield, Bucksport, J Hooper, Jr, S P Hatch & Co, Castine, B Nourse, Geo Parcher, Ellsworth, E P Butler & Co, Orono, J & R Fisk, H & J Y Richardson, Oldtown, Wm O Poor, Belfast, Chas A Macomber R T Stocomb, East Thomaston

CAUTION EXTRA.

A man by the name of *CLAPP* has engaged with a young man of the name of S P Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it *GENUINE* Original, etc. This Townsend is no doctor and never was, but was formerly a worker on railroads, canals, and the like Yet he assumes the title of Dr for the purpose of gaining credit for what he is not This is to caution the public not to be deceived, and purchase none but the *GENUINE ORIGINAL OLD* Dr Jacob Townsend's Sarsaparilla, having on it the Old Dr's likeness, his family coat of arms, and his signature across the coat of arms

Principal Office, 102 Nassau-st, New York City

OLD DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr Townsend is now about 70 years of age and has long been known as the *AUTHOR* and *DISCOVERER* of the *GENUINE ORIGINAL "TOWNSEND SARSAPARILLA"* Being poor he was compelled to limit its manufacture, by which means it has been kept out of market and the sales circumscribed to those only who had proved its worth, and known its value It had reached the ears of many nevertheless as those persons who had been healed of sore diseases and saved from death proclaimed its excellence and wonderful

HEALING POWER.

Knowing *many years ago* that he had by his skill science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated This time has come, the means are supplied, this

GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale and is called for throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration

Unlike young S P Townsend's it improves with age, and never changes but for the better because it is prepared *on scientific principles* by a *scientific man* The highest knowledge of Chemistry and the latest discoveries of the art have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla The Sarsaparilla root, it is well known to medical men contains medicinal properties and some properties which are inert or useless and others which if retained in preparing it for use produce *fermentation* and *acid* which is injurious to the system Some of the properties of Sarsaparilla are so *volatile* that they entirely evaporate and are lost in the preparation if they are not preserved by a *scientific process* known only to those experienced in its manufacture Moreover these *volatile principles* which fly off in vapor or as an exhalation under heat are the very *essential medical properties* of the root, which give to it all its value

Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from any thing else they can then strain this insipid or vapid liquid sweeten with sour molasses and then call it SARSAPARILLA EXTRACT or SYRUP But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA

This is so prepared that all the inert properties of the Sarsaparilla root are first removed every thing capable of becoming acid or of fermentation is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form and thus it is rendered incapable of losing any of its valuable and healing properties Prepared in this way it is made the most powerful agent in the

Cure of innumerable diseases

Hence the reason why we hear commendations on every side in its favor by men women, and children We find it doing wonders in the cure of *CONSUMPTION DYSPEPSIA* and *LIVER COMPLAINT* and in *RHEUMATISM SCROFULA PILES COSTIVENESS* all *CUTANEOUS ERUPTIONS PIMPLES, BLOTCHES* and all affections arising from

IMPURITY OF THE BLOOD

It possesses a marvellous efficacy in all complaints arising from *Indigestion* from *Acidity of the Stomach* from unequal circulation determination of blood to the head palpitation of the heart cold feet and hands cold chills and hot flashes over the body It has not its equal in *Colds* and *Coughs* and promotes easy expectoration and gentle perspiration relaxing stricture of the lungs throat and every other part

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS.

It works wonders in cases of *Fluor Albus or Whites Falling of the Womb Obstructed Suppressed or Painful Menses Irregularity* of the menstrual periods and the like and is as effectual in curing all the forms of *Kidney Disease*

By removing obstructions, and regulating the general system it gives tone and strength to the whole body and thus cures all forms of

Nervous diseases and debility

and thus prevents or relieves a great variety of other maladies as *Spinal irritation, Neuralgia, St Vitus Dance, Swooning Epileptic Fits Convulsions &c*

It cleanses the blood excites the liver to healthy action tones the stomach and gives good digestion, relieves the bowels of torpor and constipation allays inflammation purifies the skin equalises the circulation of the blood producing gentle warmth equally all over the body and the insensible perspiration relaxes all strictures and tightness removes all obstructions and invigorates the entire nervous system Is not this then

The medicine you pre-eminently need!

But can any of these things be said of S P Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S,

because of one GRAND FACT that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS.

while the other DOES, *souring fermenting* and *blowing the bottles* containing it into fragments the sour acid liquid exploding and damaging other goods Must not this horrible compound be poisonous to the system—*What! put acid into a system already diseased with acid!* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischiefs it produces? flatulence heartburn palpitation of the heart liver complaint diarrhoea dysentery colic and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin Scald Head Salt Rheum, Erysipelas, White Swellings Fever Sores and all ulcerations internal and external? It is nothing under heaven, but an acid substance which sours and thus spoils all the fluids of the body, more or less What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases of impurity of the blood of deranged circulations, and nearly all the ailments which afflict human nature.

Now is it not horrible to make and sell, and infinitely worse to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S. P TOWNSEND

and yet he would fain have it understood that Old Dr Jacob Townsend's *Genuine Original Sarsaparilla* is an IMITATION of his inferior preparation!

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P Townsend's *article!* and which should bring down upon the Old Dr. such a mountain load of complaints and criminations from Agents who have sold and purchasers who have used S P Townsend's FERMENTING COMPOUND

We wish it understood, because it is the absolute truth that S P Townsend's article and Old Dr. Jacob Townsend's Sarsaparilla are *heaven wide apart*, and *infinitely dissimilar*, that they are unlike in every particular having not one single thing in common

As S P Townsend is no doctor, and never was, is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health

But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to cook and serve up even a common decent meal How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS

should know well the medical properties of plants the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system and how to adapt remedies to these diseases!

It is to arrest frauds upon the unfortunate to pour balm into wounded humanity to kindle hope in the despairing bosom, to restore health and bloom and vigor into the crushed and broken and to banish infirmity that OLD DR. JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach, and to the knowledge of all who need it, that they may learn and know, by joyful experience, its

Transcendent Power to Heal
